### ON EVE ORDER.

GENEVA, Switzerland, by way of Paris, May 11.—All Italian officers and men in Switzerland, up to the age of 43, were ordered yesterday to join their regiments. Austrian and Bavarian forces are concentrating in the tyrol.

## Rheumatism in Joints

Pain Disappears and Swelling Vanishes in a Few Days.

That is what happens if you use Rheuma, the wonderful remedy that Wells-Haymaker Co., and all druggists sell on the "money back if not cured" plan. There is a vast amount of rheumatism in this vicinity, and if you know any sufferer, call his attention to this generous offer.

Rheuma is a quick-acting prescription. You will know your rheumatism is leaving 24 hours after you take the first dose. It dissolves the uric acid and drives it from its lodging place.

Mrs. Alice A. Brown, Ithaca, N. Y., writes: "For seven years I suffered greatly with rheumatism in my hip; at night I was scarcely able to sleep. One bottle of Rheuma cured me."

That sounds miraculous, but Rheuma does miraculous things. Fifty cents a bottle.—Advertisement.

\$250

per year or \$1,050, buys you the best lot in the best residence section of the city, Colonial Heights.

## NO EXCUSE FOR FEED SHORTAGE

Rye, Corn, Millet and Soy Beans Will Help Out Says Mr. Zinn.

It is too early to predict a short hay crop yet, but the cold late spring might cause us to expect a poor crop of grass, according to W. D. Zinn, county agricultural agent. Soy beans is always ready for any emergency, and he is looking forward. Mr. Zinn gives the following pointers:

There are many crops that may be grown covering a seeding period of three months. One of the old standards is Indian corn, than which there are few better. If the corn is put in the silo then it is the best. Sorghum is possibly the next when tonnage is wanted. This crop should not be sown until the weather is warm, for it is a warm weather plant. Soy beans is another crop that may be grown and produce a lot of good feed. In West Virginia they should not be sown until the weather gets warm, not before May 15 and may be sown as late as June 10.

When it is known that the hay crop will be short the grass may be cut the last of June and the lands plowed and sown to millet and an abundance of feed produced. The first of August rye may be sown and make the winter shorter by furnishing good pasture in the late fall and the early spring. With all these possibilities at the command of the farmer there is absolutely no excuse for his being short of feed next winter.

## WAR

(Continued from page 1.)

by the Turkish war office:

"On the Dardanelles front the enemy made four desperate attacks near Ari Burnu Sunday night, but were repulsed with heavy losses. The enemy's batteries were annihilated. Monday afternoon the enemy constantly carried away wounded to their boats. In the south near Seddul Bahr the enemy attacked under the protection of naval guns but owing to our counter attacks his assaults were unsuccessful."

## OFFICIAL STATEMENT BY FRENCH WAR OFFICE

(BY ASSOCIATED PRESS)

PARIS, May 11.—The French war office this afternoon issued the following statement:

"One of our aviators yesterday bombed a hangar for dirigible balloons at Mameuge and started a fire. An aviator of the enemy threw bombs on the railroad station at Doullens, twenty miles north of Amiens, without doing any damage. Another aviator of the enemy pursued between the Argonne and the Meuse by a French aviator was compelled to come down within the German lines, where his machine took fire. The Germans brought down yesterday a British aviator and British soldiers were successful in bringing down two German airmen."

In Belgium near St. George's, the enemy endeavored to recapture positions taken by us the day before yesterday but were repulsed. North of Arras, our progress continued. Monday evening we took possession first of the cemetery and then of the eastern part of the town of Carency and also of the road from Carency to Saucourt. Carency is now invested by our troops on three sides. The forces brought by the enemy from Lens and Douai were not successful at any place in getting the advantage. These attacks took place in front of Loos, at Notre Dame de Loretta, at Saucourt and at Neuville Saint Vaast. At this last mentioned place we gained some territory. Monday night the enemy suffered a further check. Counter attacks north of Neuville Saint Vaast preceded by a violent bombardment were completely repulsed and we retained all ground gained by us at the same time inflicting heavy losses on our assailant.

Following the bombardment at Dunkirk yesterday morning, during which three shells fell without hurting anybody or inflicting any damage, the Germans threw eleven shells on the town of Bergues, five miles south and southeast of Dunkirk. Twelve persons were killed and eleven were wounded. Our batteries at once opened fire and they put a stop to the shelling of the enemy which was not resumed during the day."

## ENGLISH SHIP IS DRIVEN AWAY BY GERMAN FIRE

(BY ASSOCIATED PRESS)

BERLIN, by way of London, May 11.—German general headquarters staff today gave out the following statement:

"Yesterday morning an English ship was driven away from Westend by our fire. We made further progress east of Ypres and captured five machine guns. The French continued their attacks southwest of the Loretta hill about the villages of Ablyn and Carency. All their attacks were repulsed. The number of prisoners made by us here was increased to 800. Between Carency and Neuville Saint Vaast the French continued their attacks. An English flying machine was shot down at a point southwest of Lille. Southwest of Berry-au-Bac in the woods south of Lierville-au-Vois our troops took yesterday a storm position of two lines of trenches stretching over a width of over 400 meters. We also took a number of unwounded prisoners and captured two mine throwers and much information. Enemy infantry attacks north of Flaury and in the forest of La Petre failed with considerable losses to our opponents."

"In the eastern theater yesterday the situation was unchanged."

### COUNTY COURT.

The county court is sitting at a special term considering bids for paving at Wallace.

## CO-OPERATION IS SOUGHT BY COUNTY AGENT

Asks Help of Farmers in Work of Bettering Rural Life in Harrison.

W. D. Zinn, newly appointed agricultural agent for Harrison county, has issued the following address to the farmers of Harrison county:

"Having accepted the position of county agent, the undersigned is very anxious to serve you in every possible way."

"No business equals yours in importance to humanity, for you feed and clothe the world. Our forefathers cleared away the forests and made a living out of the soil, but their lack of knowledge in taking care of the land has left to us a depleted soil as a heritage. Our population is rapidly increasing but there are no more acres of land being made. What then is our duty pertaining to the soil? Is it not to increase the production of the land in the same proportion that our population increases? In order to accomplish this end, the federal government has deemed it right and proper to render assistance through its department of agriculture to the farmers of this country."

**Manifold Duty.**  
"What are the duties of a county agent? So varied and so numerous are they that space would not permit the mention of one-tenth of them here. He is expected to aid farmers in rebuilding the soil, encourage the growing of more stuff on the farms, induce farmers to supplant unprofitable crops with those that will give a profit, encourage co-operation among farmers, make suggestions for the improvement of farm and sanitation, assist in organizing boys' corn and other clubs and girls' canning clubs, etc. In short he is expected to try to bring about a better rural life. No county agent can do all these things and many others here without the hearty co-operation of the farmers of the county."

**Present Projects.**  
"On account of the fact that the planting season is here, we want to mention some of the projects we have on hand:

"1. We want at least fifty farmers to prepare to build silos."

"2. We need fifty farmers who will demonstrate to their respective communities that soy beans will be a more profitable crop to grow than some of the crops they have been growing for years."

**Boys and Girls' Clubs.**  
"The county agent wants to go in touch with every boy and girl in the county who belongs to any of the clubs. Will you not kindly help to find them? These young people are the hope of the future of this country. Let us encourage them to have high and worthy ambitions."

**Public Meetings.**  
"There are 2,285 farms in Harrison county. To make a proper survey of all these farms would require 763 days. This is out of the question. Therefore, in order to come in contact with every farmer possible farmers to 100 each or wherever they are desired. A postal card addressed to the undersigned at Clarksburg will put you in line for a meeting. He will be glad to attend any other public meeting where he may come in touch with the farmers."

**Demonstrators' Work.**  
"The only way we have to prove to the government we are giving it value received for its assistance is by the weekly reports which the government requires the county agent to make. The Department of Agriculture demands that the county agent have a limited number of demonstrators. The work carried on by these demonstrators may cover a wide range. It may embrace the growing of soy beans, corn, potatoes, alfalfa, meadows, pastures, cover crops, silos, orchards, truck gardens, etc. To become a demonstrator a farmer needs to do one or more of these things. How many volunteers can we have in this work?"

**Conferences with Farmers.**  
The county agent will be in the county court room every Saturday from 8 to 4 o'clock to meet farmers. The number of callers he has will indicate your interest in the work.

"Yours to serve."

"W. D. Zinn, county agent."

## TEN MORE

(Continued from page 1.)

States should have in this situation as well as other phases of the world wide war. It was taken that he was endeavoring to explain broadly that the United States should seek to serve the cause of humanity by using its influence to secure an adherence to the rules and principles of international law wherever they have been contravened.

### ROAD SENTENCES

Are Imposed upon Three Men Caught Stealing Ride on Train.

Caught in the act of stealing a ride on a train in the local railroad yards by a Baltimore and Ohio policeman, men giving the names of C. T. Wolf, C. M. Woodlin and C. L. Walters were fined \$5 and costs each Tuesday morning in Magistrate T. G. Newnam's court and in default of payment they were sentenced to serve ten days at work on the county roads.

## BOYS WALKING

Frox Texas Town to Chicago Are Carrying Message of Greeting to President.

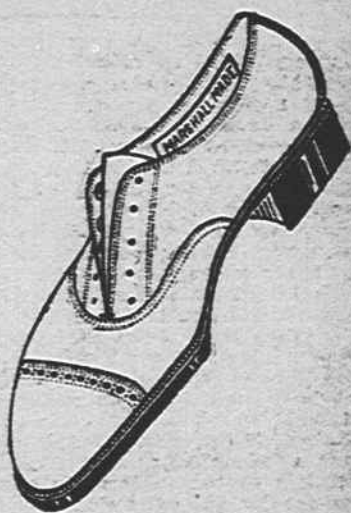

Many young people of this city will be interested in the trip which two boys, Lloyd Erwin and Lee Smith, are walking from Wazhah, Tex., to Chicago. They left today and will walk the 1,250 miles to Chicago in order to attend the world's convention of Christian Endeavor.

which convenes in that city July 2. The young men are carrying a message of greeting from Governor Ferguson, of Texas, to President Wilson, who is expected to deliver the opening address of the convention if affairs of state permit. It is expected that rallies will be held in each town where the boys stop over night. The young people of this city, who belong to the Christian Endeavor Society, expect to travel by quicker routes. It is anticipated that there will be 20,000 young people at the convention, which will be addressed by Billy Sunday, William Jennings Bryan and other leading speakers.

Corsica's big industry is the manufacture of chestnut extract.
